

JASS • ALBERTA CLASS 5-GDL ROAD TEST

ONE-PAGE-STYLE CHEAT SHEET • QUICK REVIEW BEFORE PRACTICE / TEST DAY

THE 5-SECOND RESET	LOOK FAR → SLOW EARLY → OBSERVE → DECIDE → ACT SMOOTHLY
LANE CHANGE	M-S-S-M: Mirror → Signal → Shoulder check → Move only when safe.
STOP SIGN	S-S-D-G: Stop completely → Scan → Decide right-of-way → Go when safe/legal.
MISSED INSTRUCTION	MISS ≠ PANIC. Never make a sudden/unsafe manoeuvre just to obey an instruction.

1 • TEST-DAY VEHICLE + COCKPIT

Before moving	Seat adjusted • mirrors adjusted • seat belt on • know controls • parking brake/gear status checked.
Vehicle	Ensure the vehicle meets Alberta's legal/safety requirements. Check lights, signals, horn, brakes/park brake, windshield/wipers, tires, doors, seats/seat belts, mirrors and enough fuel/charge.
Mindset	Examiner directions are not a trick. Safety and legality come first.

2 • OBSERVATION — MAKE IT VISIBLE

Ahead	Scan far ahead for lights, signs, pedestrians, cyclists, parked vehicles, lane changes and developing hazards.
Mirrors	Check before braking, turning, changing lanes or changing position; continue normal scanning.
Blind spot	Shoulder-check before a lane change/lateral movement. Signal does NOT give you the right to move.
Intersections	Slow/observe enough to identify signs, signals, pedestrians and conflicting traffic.

3 • TURNS

Right turn	Correct lane → signal → observe → reduce speed appropriately → yield if required → turn into proper lane → accelerate smoothly.
Left turn	Correct lane → signal → scan → yield as required → controlled turn → proper receiving lane.
Avoid	Wide/swinging turns, cutting corners, turning from the wrong lane, late signals, unnecessary stops and rushed steering.

4 • INTERSECTIONS / RIGHT-OF-WAY

Stop	Complete stop. Then scan and determine who has right-of-way before proceeding.
Red light	Complete stop. Right turn on red is permitted unless prohibited, but yield to pedestrians and vehicles with the green.
Yellow	Warning the light is changing. Do not enter the intersection on yellow; if already in it, clear it safely.
Flashing red	Treat like a stop sign.
Flashing yellow	Treat like a yield sign.
Driveway/alley	When entering a street from an alley, driveway, parking lot or service road, stop and yield before proceeding; the sidewalk also requires stopping/yielding.

Uncontrolled	Slow and observe. Be prepared to yield; right-of-way depends on the applicable rules and traffic situation.
--------------	---

5 • PARKING MEMORY

Parallel	Signal + observe → controlled reverse → use practiced reference points → keep checking surroundings → finish legally and without climbing curb.
Hill: uphill + curb	Front wheels LEFT toward centre of road; secure vehicle.
Hill: uphill, no curb	Front wheels RIGHT toward road edge; secure vehicle.
Hill: downhill	Front wheels RIGHT; secure vehicle.
Important	If parked on the left side, wheel direction is the opposite. Always set park brake; automatic = Park, manual = appropriate low gear.

JASS • CLASS 5-GDL — FAILURE-PREVENTION PAGE

Memorize the habits, not just the words.

6 • HIGH-RISK ERRORS TO ELIMINATE

STOP	Do not roll through a required stop.
YIELD	Do not take right-of-way that belongs to another road user.
SPEED	Do not exceed the limit or drive too fast for conditions.
LANE CHANGE	Do not move into an occupied blind spot or make a sudden lateral move.
PEDESTRIANS	Never create a conflict or endanger a pedestrian.
CONTROL	Avoid harsh braking, rushed steering, drifting, curb strikes and unnecessary obstruction.
INSTRUCTIONS	If you miss a direction, continue safely; do not improvise an illegal or dangerous manoeuvre.

7 • ALBERTA ROAD-TEST FACTS

75 points	Alberta says Class 5 and 6 road tests fail at more than 75 points.
Automatic fail	Alberta says an automatic fail can result from endangering a pedestrian/another driver, driving unsafely or breaking traffic laws.
Scored skills	Points can be assigned for missing necessary skills, breaking road rules, or performing manoeuvres poorly.
Current source	Always check the current Alberta.ca Driver's Road Test page and current Driver's Guide before test day.

8 • THE 30-SECOND MENTAL SCRIPT

Before starting	SEAT • MIRRORS • BELT • CONTROLS • SURROUNDINGS
Every block	LOOK FAR • MIRRORS • SIGNS/LIGHTS • PEDESTRIANS • LANE
Every lane change	MIRROR • SIGNAL • SHOULDER • MOVE
Every stop	STOP • SCAN • DECIDE • GO
Every turn	LANE • SIGNAL • OBSERVE • SPEED • YIELD • TURN • FINISH
When nervous	Breathe. Slow down appropriately. Look farther ahead. Make one safe decision at a time.

9 • NIGHT-BEFORE / MORNING CHECK

Practice	Do one calm drive focusing on observation and smoothness—not speed.
Vehicle	Lights • signals • horn • brakes • tires • mirrors • windshield/wipers • doors • belts • fuel/charge.
Documents	Bring the required licence/appointment and vehicle documents; verify your test confirmation for current requirements.
Arrival	Arrive early enough to settle down. Do not begin the test already rushed.

TRAP	BETTER RESPONSE
I missed the turn!	Continue safely. Wait for the next instruction.
Someone is tailgating me.	Do not speed up just because of pressure. Maintain a safe, legal speed.
The light is turning yellow.	Make a safe/legal decision; never create a hazard by a panic stop.

A lane looks empty.	Still check mirror + blind spot before moving.
I am nervous at a stop.	Complete the stop, breathe, scan, decide, then go.

IMPORTANT: This is a study aid, not an official Alberta scoring sheet. Road-test procedures and rules can change. Use the current Alberta Driver's Guide and Alberta.ca road-test information as the authority.
